

BINTEX FUTURES

Multipurpose Defi Platform For Staking, Swap, Nft, Launchpad, Wallet

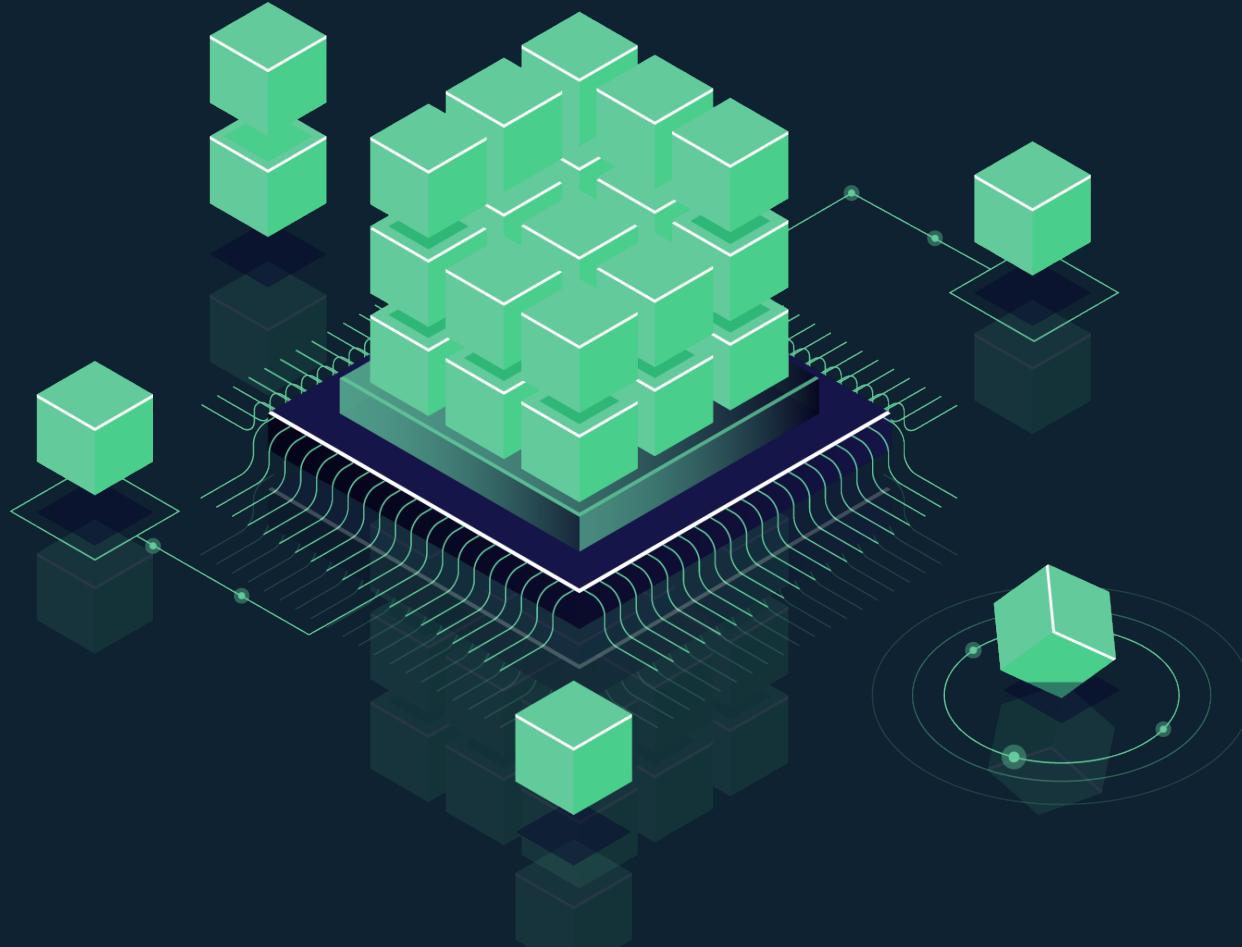

Bintex Futures is a world-class blockchain company comprised various cryptocurrency related functions like Staking, Swap, trading, NFT, Launchpad ,and storing of cryptocurrencies .

Bintex starter is a professional and community-centric DeFi launchpad platform coming up with the launch of its BNTX token and lots of opportunities for the Crypto community. This decentralized project is aiming to provide a smooth and transparent fundraising platform. Raising funds for well-deserved blockchain projects has never been this much transparent and professional. Built on Ethereum, the main mission behind Bintex futures is to facilitate the Crypto community by providing a hassle-free DeFi launchpad working environment.

Problems Bintexfutures Trying To Solve

The DeFi market is growing day by day on a daily basis but there are some issues in other platforms, problems the community face on other DeFi platforms, we have come up with some unique features

- Single chain network dependency.
- Transparency of the whitelisting selection process.
- Separate KYC submissions problem.
- Issues regarding sale and purchase of assets between blockchains.
- Cross chain swaps

Why Bintex Futures?

The market has seen a huge shift of business from centralized exchanges to DEX (Decentralized Exchange). The stats show a big rise in trading volume on the DEX within few months. Following the huge increase in the market of DEX, Bintexfutures has been developed with an aim to take DeFi to the next level.

The team at Bintexfutures make sure to bring effective and professional features to make this platform better for the whole community. Have a look at the following features of Bintexfutures.

Bintexfutures Products

BintexPay Wallet

Multi chain decentralised wallet Offers Safe Storage with Benefits

unique private wallet to store assets and this wallet generates a separate individual blockchain address for each type of asset, and stores all information regarding the user's holdings, trade history, and payment information so that the user can easily access all the information at any time.

The BintexPay wallet app Now available in the Google Play Store . we are launching utility payment methods with BNTX tokens

BintexShop NFT market place

Presenting BintexShop NFT marketplace, the ideal platform for NFT creators and digital artists to sell their precious art and assets to the whole Crypto community. BintexShop is on the goal to make the sale and purchase of NFTs more convenient and professional than ever.

Valuables of NFT

- Limited The shortage of NFTs adds to their appeal. NFT developers may build an unlimited number of non-fungible tokens, and they often modify the tokens to keep interested up.
- Indivisible The majority of NFTs are indestructible into smaller units. You will not be able to purchase a digital item until you pay the full fee.
- Unique NFT is completely safe and accurate because it has a robust information tab. This feature makes the NFT more unique and potent.

Benefits of NFT

- Easily Transferable:** The transfers of NFTs are centered on their uniqueness and indivisibility, thus the tokens are sold and purchased on a unique market.
- Trustworthy:** NFTs are based on blockchain technologies. Consequently, you must be confident that your NFT is right, as counterfeiting a decentralized and permanent record is difficult.
- Maintain Ownership Rights:** This is a network of open platforms the size of an NFT, with no buyer having the ability to modify the data later

Bintex Staking Dapp

Bintexfutures Staking dapp works on the Ethereum platform, which is safest and eco-friendly, working on a proof of stake.

Bintex staking ensures users' funds are safe by leveraging effective security measures to earn passive income by merely storing or locking funds in a StakingDapp .

Staking essentially means depositing BNTX tokens within the protocol Safety Module. The purpose of staking is stakers will receive BNTX as rewards. The Staking rewards are 36% APY for 6 months locking, 48% APY for 12 months and 60% APY for 24 months locking period and rewards will be distributed to the stakers on monthly basis.

Stake BNTX

in order to use the service, you simply deposit your BNTX tokens. After depositing, you will earn rewards on staking Pool amount

Referral Rewards

Bintex futures will provide referral rewards for StakingDapp. The Application offers 10% refferal Bonus for referring a friend those rewards automatically sent to your wallet address whenever your friends stake BNTX

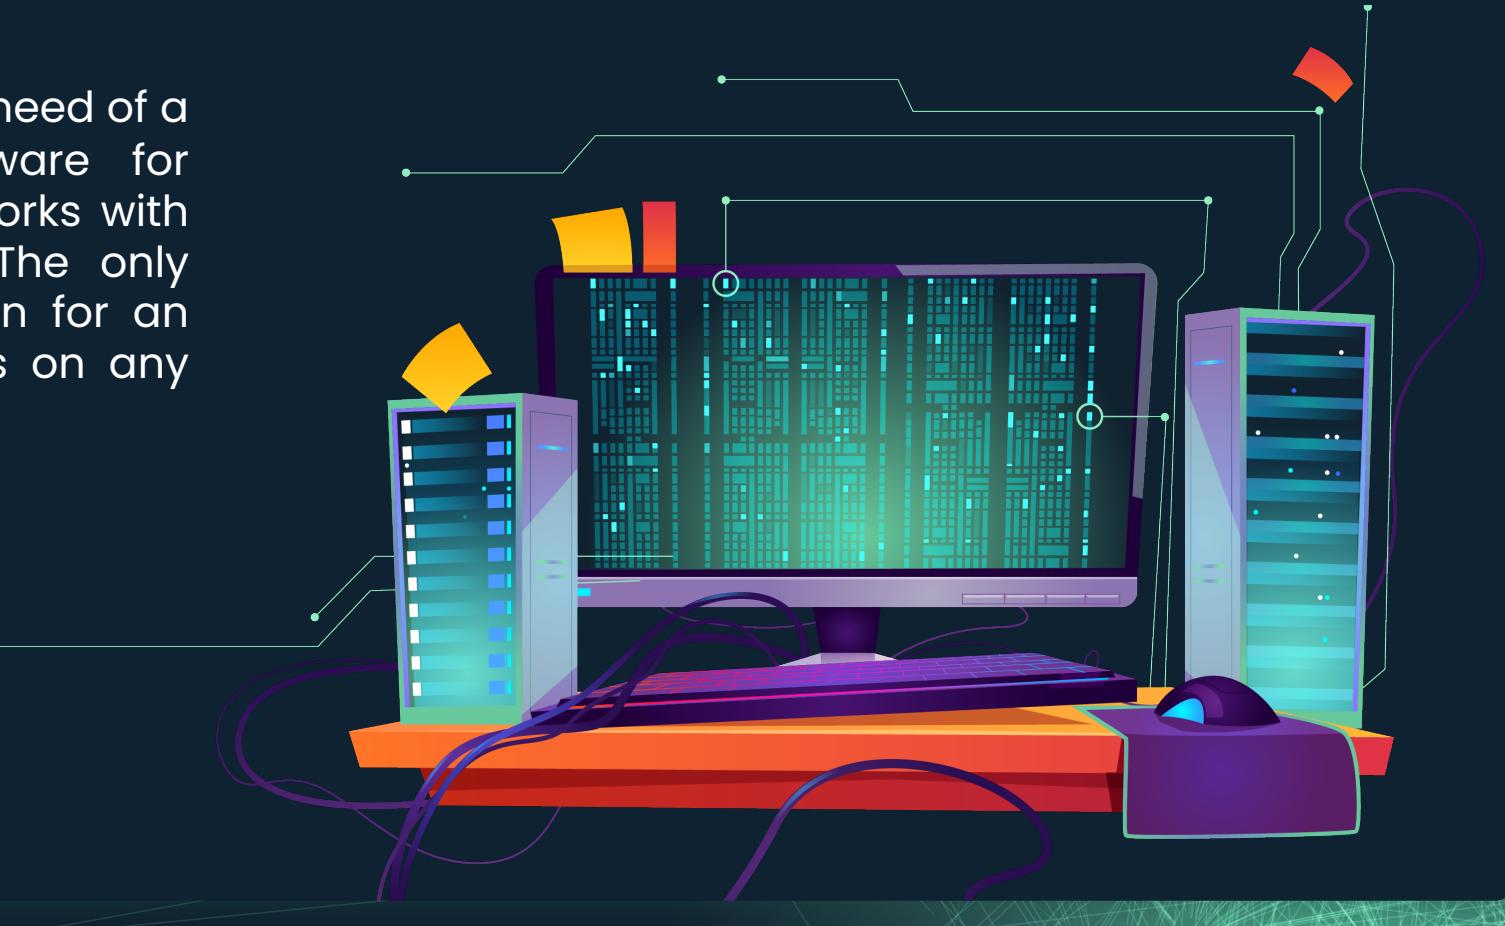

Unstake BNTX

In order to unstake your BNTX from the Staking dapp, you will need to select 'unstake' and click on 'activate'. It will require one transaction to be sent. The cooldown period by default is 30 days, After the cooldown period is over Then Your BNTX will be sent to your wallet.

Features of Bintex Staking Dapp

NO HARDWARE IS REQUIRED

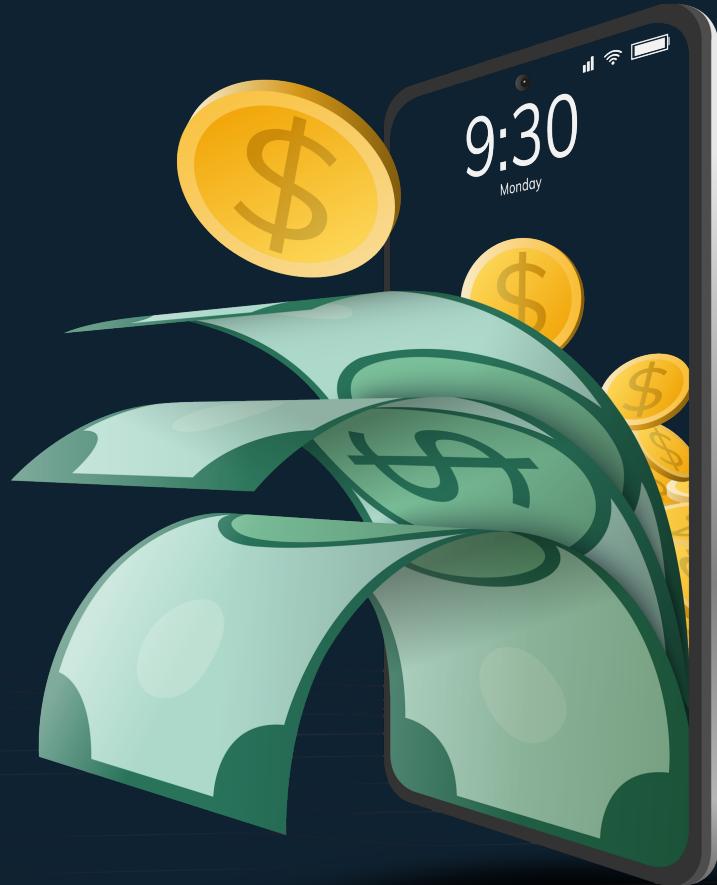

Unlike proof of work, there is no need of a specific equipment or hardware for crypto staking. Proof of stake works with no equipment requirements. The only requirement is to hold the coin for an interval of time by the holders on any exchange.

Features of Bintex Staking Dapp

PASSIVE INCOME

Stake holders earn incentives by holding and controlling their digital wealth . Bintex futures staking dapp is offering 36% APY for 6 months locking, 48% APY for 12 months and 60% APY for 24 months locking period and rewards will be distributed to the stakers on monthly basis.

Features of Bintex Staking Dapp

MORE COST-EFFECTIVE

Proof of stake blockchains are always inexpensive and less energy-consuming platforms with no particular and expensive hardware requirements. Unlike proof of work chains, PoS is more cost-effective and eco-friendly. So, the stakers can earn more passive income by using Staking.

Features of Bintex Staking Dapp

SCALABILITY

In the Blockchain world, scalability is a concept that is often used. It refers to a computational process's potential to be used or generated in a variability of ways. Proof of stake protocols, higher transaction outputs and lower fees, make for greater scalability.

Features of Bintex Staking Dapp

ECO-FRIENDLIER

As Proof of stake blockchains are less energy-consumers, they are more environment friendly. Thus, they have a lower carbon footprint and have little or no environmental effects.

Features of Bintex Staking Dapp
